Action Plan

Before putting together our action plan we considered the following questions:

1. Does our school have a vision for PE and school sport?
2. Does our PE and sport provision contribute to overall school improvement?
3. Do we have strong leadership and management of PE (and school sport)?
4. Do we provide a broad, rich and engaging PE curriculum?
5. How good is the teaching and learning of PE in our school?
6. Are we providing high quality outcomes for young people through PE and school sport?
7. Are we providing a rich, varied and inclusive school sport offer as an extension of the curriculum?
8. Are all pupils provided with a range of opportunities to be physically active and do they understand how physical activity can help them adopt a healthy and active lifestyle?

We believe that the Sport Premium funding should support three key areas; physical education, healthy, active lifestyles and competitive school sport. Our school action plan signifies these key areas and has consequently been divided as such:

Physical Education

Physical education is education through physical activity: its goal is the development of the individual as a whole, not just their physical development or their proficiency in specific sports.

Through a focus on ensuring physical education at primary school we provide young people with access to physical activity for life as well as build the foundation for future participation and performance in sport.
