26th January 2016

Dear Parents,

In October last year the school was subject to an unannounced inspection of Behaviour and Safety in the school. This followed a complaint being made to Ofsted.

The inspection lasted 2 days and covered all three sites.

The important thing to say is that the inspectors found that children were safe and well cared for and that behavioural difficulties were managed well.

The findings were that we are not as good as we should have been in relation to all of the paper-work, record keeping, policies and procedures.

The report or letter as it is rightly called did not arrive with us until 4th January so I could not tell you the outcomes before now. As you would expect we have wasted no time in putting all of the issues right and are confident that should any return visit occur, huge improvement would be evident.

The information is on the school website but if anyone would like a copy then please contact the main office.

Yours sincerely

June Palmer

Headteacher

'Learning together to be the best that we can be'
